NEW YORK - **Elika Associates** has jumped into the commercial markets, launching a tenant/buyer representation group in the New York market.

Elika Commercial will provide full-scope analyses, negotiations and consulting, including comparative space and site selection and identification of investment opportunities.

"This new initiative will allow us to seize investment grade opportunities for our buyers, as well as give our tenants access to all available retail, office and professional spaces in New York City," said **Gea Elika**. "We have always represented tenants and buyers in the New York City area. The difference now is that this focused team will work only with commercial tenants and buyers and will never take on any property exclusives, thus alleviating any potential conflicts of interest."
